Our Over View & Profile

Investment in education leads to the creation of human capital, which is an important input into socioeconomic development of a nation. In many developing countries, including India, education in general, and higher education in particular, is predominantly in the public sector, though the trend is fast changing. Thus education was believed to have been bypassed by the miracle of the market and is an example of what Dreze and Sen (1998) call a market-excluding arrangement, rather than a market-complementary arrangement. Developed countries, on the other hand, have been able to have market-complementary arrangements in education as a result of which widespread literacy levels have been achieved.

With a billion dollar industry involving foreign education providers, distance learning and franchisees, we discuss the status of higher education in India and argue that GENX could provide an opportunity to put together a mechanism whereby private and foreign investment in higher education can be encouraged subject to high quality standards and efficient regulation.

GENX has made significant progress in adopting technology and applying professional management practices to the world of education. A distilled decoction of the collective experiences of the GENX team has now been encapsulated and provided as a service to schools, colleges and educational institutions, with GENX playing the role of a Education Service Provider (ESP).

GENX is education service provider led by a team of esteemed professional from educational sector with a passion for education. Since its inception, it has focused on academic excellence, technological innovation and domain expertise to work towards its core objective of "Step Towards Excellence".

Over the years, GENX has established itself as a national player in the field of educational excellence. Today, it functions across a broad spectrum of educational services including K-12 schools and higher education.

GENX education service Pvt. Ltd. provides offer to schools services such as the following:

- Curriculum design
- Professional development of teachers
- Student assessments

- Financial and operational management
- Facilities management
- Human resources management

What works in education? The GENX education service Pvt. Ltd. Presents reliable, unbiased reviews of research-proven educational programs to help:

- POLICY MAKERS use evidence to make informed choices.
- PRINCIPALS choose proven programs to meet state standards.
- TEACHERS use the most powerful tools available.
- RESEARCHERS find rigorous evaluations of educational programs....because all children deserve the best in education

Why us?

Easy solutions in today's complex world are certainly a thing of the past. Complexity has become more the norm than the exception. This is especially true for school systems which have to balance the needs of students, parents, teachers and numerous other constituencies while accommodating

requirements imposed by local, state and federal governmental entities. And let us not forget the day-to-day pressures of running an educational institution. Managing a school system is by no means a simple task. So where can school systems turn when a special need arises that, for whatever reason, cannot or perhaps should not be addressed by existing staff? Many are turning to GENX because of our ability to match the best qualified resource with the management need for the period desired. Others cite our exclusive devotion to serving the needs of school districts or the high quality and education specific experience of our consulting associates. Quality people helping quality organizations to produce quality results. That's GENX !

Covering a wide range of topics, we are confident that you will find the services available through GENX to be both cost effective and very convenient. Whatever the need, give us a call at 07890011940 . We believe that you will be pleased with the results - and with the people who help you achieve those results.

Come and let join our hand with us to come out with **BEST** for the generation to come .

The person with a fixed goal, a clear picture of his desire, or an ideal always before him, causes it, through repetition, to be buried deeply in his subconscious mind and is thus enabled, thanks to its generative and sustaining power, to realize his goal in a minimum of time and with a minimum of physical effort. Just pursue the thought unceasingly. Step by step you will achieve realization, for all your faculties and powers become directed to that end."
